Hello,

Noel & Dustin recently headed a team to do some landscaping for me. I am writing because I was so impressed with the team that worked here. I found each individual very professional, courteous, hardworking and willing to answer any questions I had.

I feel that rarely do we commend someone for a job well done and I felt that this time it was indeed warranted. Please pass my thanks on to them.

Teri Sharman

Hello,

Since I could not find an e-mail address on your website for commendations, I am sending this to you, in hopes that it can be forwarded to the proper department. This past May, we hired a contractor to landscape our new yard. As of August, he left us without any word, or notification that he had decided to quit. We did, however, have a big mess left on our hands ( or property, as it was.) Determined not to be stung again, or at least do all we could not to be, we turned to your website, and came up with John Dick's name and company. In just days after our initial call for help, his crew had transformed the disaster left in our yard, into what it should have been months ago. (see before and after photos!) The landscaping team headed by Noel and Dustin had the dead sod stripped, the messes cleaned up, and beautiful, GREEN sod laid in record time, and then Rick, the paving stone expert, created the perfect patio and sidewalk, just as we had imagined it, and all was completed in less than a week! We are so pleased and thankful that John was able to fit us in so quickly, so this project could be wrapped up before the fall. Our most sincere thanks to the John Dick Landscaping company, and especially to the landscaping and bricklaying crews that did such an outstanding job. They are truly a company most worthy of being recognized by the BBB.

Thank you, also, as we most certainly will turn to the BBB website again in the future before we choose a company to hire.

Sincerely,

David and Deanne Strang
